WEDNESDAY, APRIL 9th, 1919.

A SEDITIOUS MEETING.

Cardinal Gibbons and his Sinn Féin friends in the United States held a mass meeting in Philadelphia on February 23rd, and practically declared war on Great Britain, says the Toronto Sentinel. The resolution regarding Irish independence was proposed by the Cardinal. It was based on a "declaration of principles" which contained this clause:—

"A state of war therefore exists between England and Ireland, which is the interest of the peace of the world, the Peace Conference cannot ignore."

The whole tone of the meeting was anti-British and anti-American. Britain and the United States are still allies against a common enemy. Although hostilities have ceased in Europe the war is not really over—peace has not yet been signed. The meeting at Philadelphia then clearly a violation of the Constitution of the United States, Article III, section 3 of which reads as follows:

"Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. The declaration of war against the British Empire must certainly give aid and comfort to the most unscrupulous enemy the United States ever had. The United States Constitution declares all men to have been 'created equal,' but thousands have been sent to prison for terms ranging as high as twenty years, who did not express such seditious and traitorous sentiments as did those ecclesiastics and Sinn Féiners at Philadelphia. It is not believed that the United States would permit any other class of people to express themselves in such traitorous terms and get away with it. It is quite evident that if the Sinn Féiners did not have the solid support of the hierarchy they would have been interned long ago. Cardinal Gibbons' chief lieutenants of the meeting were Archbishop Messmer of Milwaukee, and Judge Cohan of New York, the latter of whom, it will be remembered, succeeded in having his brother appointed Bishop of Cork in 1916, by inducing Count von Bernstorff and the German government to recommend him to the Pope for that position. These clericals and pro-Germans are annoyed to find the Anglo-Saxon race so closely united, and they seem determined, if possible, to break the tie which binds Britain and the United States together.

The resolution passed at Philadelphia, including the declaration of war, on England, was quoted with evident approval in recent issue of the Roman Catholic Record, the official organ of the Roman Church in the diocese of Bishop Fallon, London, Ontario.

WAIL OF THE GRAND TRUNK.

Calgary Alberta: The Grand Trunk Railway company has an idea that it has no had as generous treatment from the Canadian government as some of its rivals. It has not had all the land grants the president says and the subsidies have been really unimportant.

The trouble with the Grand Trunk is that it has never really been known in Britain and everything has been done in the British way. Canada was regarded as a place of exploitation. The result has been that the company never paid very well. It was never properly administered. It never made money.

But the president is overlooking something when he says that Canada never responded by the same methods to these deserving and patriotic capital.

That is very far from being the case.

The Grand Trunk has received in subsidies and loans, which were never repaid and upon which interest was never paid, nearly thirty million dollars, which is a fairly large sum at any time in any country.

These subsidies came from the Canadian government, from the different provinces, and from the municipalities. The heaviest subsidies were given in the middle of last century, when the purchasing power of a dollar was worth the purchasing power of three dollars at the present time.

The Canadian government and the Canadian people were as generous in dealing with the Grand Trunk as in dealing with any other railway. There is a softness in the heart of the Canadian people, or a weakness in the head, which always makes our government easy marks for railway companies.

BORROWING AT HOME INSTEAD OF GOING ABROAD.

Canada having, during the last two years of the war, demonstrated her ability to finance herself, it is now expected, both at home and abroad, that she will continue to do so. London advises that she is expected to meet loans falling due there this year and that Canadians residing there admit that this should be done, in addition to the financing of the Dominion's growing trade.

Canadian opinion also pretty generally agrees that it is in the interest of the country that she should do this. There is a feeling that while some borrowing may have to be done abroad, still the less that is done the better for Canada. Indeed the wisdom of converting Canada from a borrowing into a lending nation is so manifest that there is a general demand that this be done.

War Savings Stamps are a step in this direction, for through their sale funds are placed in the hands of the Dominion Government. In other words this means that, instead of borrowing in London and New York, the government is trying to get, at home, the funds it needs. It has also arranged that any person having \$4 may thus lend it to the government, which pays 4½ per cent. compounded half-yearly.

EVIDENCE THAT IS CONCLUSIVE

A writer in the Calgary Herald a few days ago made a few comments on letters recently appearing in that paper, written by the advocates of Bolshevism. He says that their appeal, which is a peculiar one, is to authority, and they refer to persons whose conclusions, fairly interpreted, seem to be that the Bolsheviks have been guilty of bloodshed and excesses, but these have been exaggerated. From these premises, they proceed to state that they are in favor of the aims and objects of the Bolsheviks.

The attention of the public generally might well be directed at this time to the documents in the possession of the U.S. government. These are of so circumstantial a nature that they cannot be perused even by a casual reader without a strong conviction of their authenticity. Having been challenged they were submitted to a committee of experts on Russian affairs, who declared the criticisms unfounded, and they have been published as genuine by the government of one of the greatest democracies. Among other things, they establish the following:

- 1.—That the Bolsheviks assisted the Germans in obtaining passports and transportation of German agents to Britain and the United States.
 - 2.—That they assisted the Germans in carrying out espionage on the Allied embassies.
 - 3.—That they conspired to assassinate loyal Russian generals, destroy the railway system against Germany.
 - 4.—That huge sums of money were paid by the German Imperial bank to the persons at present known as Lenin and Trotsky and their associates, for the spread of peace propaganda in Russia and to bring about her withdrawal from the war.
 - 5.—That those who were at first only tools, when opportunity presented itself, betrayed their masters, and themselves embarked on a similar enterprise of world domination on behalf of a different class, but with the same methods of brutality and terrorism.
- The writer fully realizes that to

minds whose chief conviction seems to be that their own class is always wrong and should be the object of continual suspicion and distrust, the above facts carry little weight. There are, however, some matters of history which even the Bolsheviks cannot deny and which put their supporters in a different position.

The first of these is that the Bolsheviks protested against the terms imposed upon Germany by the armistice. Are their supporters in sympathy with their aims and objects in this respect?

The second is that the Bolsheviks were the peace party of Russia and were responsible for the withdrawal of that country from the war. As a result of this, Germany was able to mass her forces on the western front and make a final drive for victory—one which cost the Allies hundreds of thousands of lives.

In the face of this immense sacrifice and the unspeakable sufferings endured by the Allied forces, the advocates of Bolshevism, nevertheless, seem to believe that "the war" was the support of the men who saw their comrades fall as a result of the betrayal of their cause by the Bolsheviks.

It seems unfortunate that at a time when public sympathy is almost wholly in favor of labor it should be misinterpreted by the present administration palpalably designed to strengthen the power of Lenin and Trotsky in Russia, but calculated to disrupt those organizations, which unite a same and moderate leadership might be able to obtain for labor the justice due to her.

GOVERNMENT TO ACQUIRE G.T. RAILWAY

SIR THOMAS WHITE MAKES AN-
NOUNCEMENT THAT THIS IS
LIKELY TO BE OUTCOME.

Ottawa, April 3.—That acquisition by the government of the Grand Trunk railway will probably be the outcome of the present railway situation, was a statement made by Sir Thomas White, when the bill confirming the appointment of a receiver for the Grand Trunk Pacific was being considered in committee.

Sir Thomas said he could not make this statement definitely, and suggested, as possible alternatives, that the government might resort to suit or foreclosure.

There was some criticism of the statement by the government by Major Thomas A. Vieu, Lottinore, who regretted that an order in council appointing a receiver had been passed before the government had declared its railway policy.

R. L. Richardson, Springfield, declared that there appeared to be a conspiracy on the part of some newspapers to help the Grand Trunk and resented the suggestion that the Grand Trunk should be taken over by the government. He was treated with generosity. There was nothing left but public ownership, he said.

Sir Thomas White, in the course of further remarks, explained that under the receivership, the government will not pay interest guaranteed by any of the governments. The government would pay only enough to operate the system. Sir Thomas denied that the action of the government in regard to the Grand Trunk would hurt the credit of Canada in London.

Speaking at a late hour, Hon. Arthur Meighen stated that no step had been taken by the government which constituted unfair treatment. There had been, he said, a fair offer of arbitration, with no final limit fixed as was done in the case of the Canadian Northern.

NO NEW LOAN TILL FALL.

Ottawa, April 3.—It has been learned from inquiry at the finance department that there is no likelihood of a new Dominion loan until autumn.

EXECUTION OF CAPTAIN FRYATT INVESTIGATED

Berlin, April 1.—An investigation was begun this morning before an imperial military court into the case of Capt. Charles Fryatt, the British seaman, marine, commander, who was executed by the Germans in 1916, after his conviction by a German court-martial of having attempted to run a submarine with his vessel, the Great Eastern railway steamer Brussels. A large number of witnesses appeared for examination.

VALLEY CENTRE.

Ideal spring weather in our little valley. Days like these make people feel it is good to be living.

The many friends of Mrs. A. Purdie, who is at present being treated in the Memorial Hospital, owing to an accident to her eyes, will soon be so far improved as to return home.

A very pleasant and instructive evening was spent, on Wednesday, at the Valley Centre Presbyterian Church, where Rev. H. D. Marr, B.A., assisted by Miss B. Meek, exhibited by magic lantern, many pictures. A good number were present, and all seemed to enjoy themselves. At the close of this meeting a branch of the Bible Society was organized in our valley. Mr. William Purdie being elected as president, Mrs. C. Reay as vice president, and Miss Bella Reay as secretary.

Don't forget our interesting church services and Sabbath school every Sunday.

We are missing some of our soldier-boys are arriving home recently. All be sure and extend a welcome to them.

NO TIME TO COUNT THREE.

A group of negro soldiers were receiving instruction in the throwing of grenades, says the Argonaut; at one, they were to pull the firing pin; at two, draw back the arm; at three, throw the grenade. The captain explained to the nervous negroes that five seconds would elapse between the pulling of the pin and the explosion. "You must not throw too soon," he said, "or some German is likely to pick it up and toss it back. Don't hold it too long or it may blow your arm off. Then he counted, "One."

A little negro on the end jerked the pin, poised the grenade an instant, and threw it as far as he could. "What's the trouble there?" asked the captain. "Didn't I tell you to hold it until the count of three?"

"Why, man," said the recruit solemnly, "Ah could feel that thing swellin' in my hand."

CONDONE KILLING OF CAPT. FRYATT.

Copenhagen, April 3.—The commission investigating the execution of Captain Charles Fryatt by the Germans in 1916, has decided that the shooting of the captain did not violate international law. The committee, however, expressed regret at the rapidity with which the sentence was carried out, according to advice received here from Berlin, where the investigation was heard.

W.C.T.U. NOTES.

In spite of other attractions, there was a good attendance at the monthly meeting of the W.C.T.U. on the afternoon of Friday, March 25th. Following the devotional exercises, Mrs. F. W. Gatz read a paper dealing with the evils of the cigarette, a few extracts of which might not be amiss. "During the last few years we have been slowly but surely educating our youth to the cigarette habit, in the movies, every boy sports a cigarette. All of his wanderful stunts are performed with a cigarette between his lips. Is it much wonder that the boys imitate him?"

Statistics show that in 1917, the average age at which boys learned to smoke cigarettes was 11 years. In one Alberta school in which it was found necessary to hold an investigation for bad conduct, it was found that every boy in the school smoked. "This was not a rural school. We have been very liberal in supplying smokes for the boys overseas, regardless to the fact that we were injuring those we loved. Even innocent children were asked to contribute to the tobacco fund. Much has been said and written of the men who made their millions during war time from munitions or from opium; but we hear very little of the men who have made their millions out of the comforts which have been sent to the boys in the form of tobacco."

Mrs. Seaford read a very interesting letter from Miss Howard, Social Service worker among the Ruthenians; also a paper on "A Ruthenian Teacher." The letter, which dealt with work accomplished and plans for the future, was very gratifying. Miss Howard showed a knowledge and understanding of the task which has been entrusted to her, that of Canadianizing Canadian citizens.

A pleasant feature of the afternoon was a solo by Mrs. Porter, which was thoroughly appreciated. The lesson in Civics, "Money and the Banks," was presented in an interesting manner by Mrs. Moyes.

The plan of work for the year, as arranged by the Plan of Work Committee, was brought before the meeting. The Union, are asked to make this a Child's year, and to make a special feature of Child Welfare work.

At the close of the meeting the hostess kindly served refreshments.

IT TAKES COURAGE

To live according to your convictions.

To be what you are and not pretend to be what you are not.

To say "No" squarely and firmly when those around you say "Yes."

To live honestly within your means and not dishonestly upon the means of others.

To speak the truth when by a little prevarication you can get some special advantage.

To refuse to knuckle down to and bend the knee to the wealthy, even though you are poor.

When mortified and embarrassed by humiliating disaster, to seek in your ruins the elements of future success.

To refuse to do a thing which is wrong because others do it, or because it is customary and done in trade.

To remain in honest poverty while others grow rich by questionable methods which you could easily use yourself.

To refrain from gossip when others about you delight in it, and to stand up for an absent person who is being abused.

Not to bend the knee to popular prejudice, but stand firmly erect, while others about you delight in it and praise and power.—The "New Success."

ALBERTA WILL FACE WHISKY FAMINE.

A famine in spirituous liquors made in Britain threatens at the present, due to the decided action taken by the Docton's union in Glasgow. An amount of brandy and Scotch whisky is now on the docks at Glasgow ready for shipment. The dockmen have refused to make further shipments of liquor from Britain until the stocks of liquor in the old country, which has been greatly reduced, is brought up to the standard. Docton's is the liquor star, and the famine may come in Alberta.

INFANT MORTALITY IN CANADA IS AT A VERY HIGH RATE.

Ottawa, April 4.—In his speech on the creation of the federal health department in the house, last night, Hon. N. W. Rowell, referring to the question of infant mortality, said New Zealand paid most attention to this matter, and as a result that country showed only fifty deaths per thousand babies under one year old. Other countries showed the following number of deaths per thousand babies under one year:

Australia, 68; Sweden, 70; Switzerland, 91; Denmark, 95; England and Wales, 119; France 78; Russia, 249.

In Canada the number of deaths per thousand babies under one year, by provinces, was as follows:

Saskatchewan, 91; Prince Edward Island, 93; Ontario, 107; British Columbia, 107; Manitoba, 113; Nova Scotia, 120; Quebec, 112.

A comparison of cities in Canada with London, England, where the death rate per thousand babies under one year was only 89, was given by the speaker. He gave the following figures:

Sherbrooke, 101; Toronto, 102; Vancouver, 126; Winnipeg, 144; Quebec, 203; Montreal, 207; Ottawa, 224.

He then turned to the menace of venereal diseases. It has been found he said, that this class of disease was more prevalent in the civilian population than among the troops.

Mr. Rowell proceeded that nothing so much as the war had vindicated the medical profession. Had typhoid been as prevalent in this as previous years there would have been 150,000 cases in the British army. There were actually less than 1,500.

HILLSDOWN AND VALLEY CENTRE RED CROSS.

The Hillsdown and Valley Centre Red Cross Helpers purchased, made up and sent off the following articles between January 1st and March 31st, 1919.

3 nurses' aprons; 4 pr. socks; 6 helmets; 2 scarves; 2 pr. mitts; 120 muslin handkerchiefs; 26 T bandages; 18 amputation socks; 2 cotton binders; 25 pillow slips; 12 b.p. covers; 36 p.p. bags; 6 baby frocks; 14 child's chemises; 2 child's drawers; total, 275.

STYLE HEADQUARTERS

Where Society Brand Clothes are Sold

"Ace"

Style

SOCIETY BRAND style, like a triangle, has three dependent sides; the first is attractive patterns woven into fine fabrics; the second is the smart design of the model; the third is the tailoring of the clothes.

Each side is perfectly developed to meet the other two; that's why the effect is a finished whole—and the longer you wear a Society Brand suit the better you'll know it.

Society Brand Clothes

FOR YOUNG MEN AND MEN WHO STAY YOUNG

One standard of tailoring—varying costs of materials alone make a difference in the price of these clothes, otherwise they would all be one price.

PLAN DRASTIC CHANGES IN ALBERTA LIQUOR ACT

GOVERNMENT TO MAKE GREAT ATTEMPT TO COPE WITH SERIOUS SITUATION ARISING FROM BOOTLEGGING.

The Alberta government is under no misapprehension about the political wisdom of more vigorous and efficient enforcement of the liquor act. The premier and the other members of the cabinet realize that the present situation is unfavorable, that the efforts of the provincial police are not meeting with the success in running the bootleggers to earth that they expected, and that the present act is so full of holes that John Barleycorn could drive a trainload of cars through it and never touch an edge of the jagged legislation.

There are three problems that the government have under consideration:

- (1) The bootlegging doctor, of whom there is not very many, but who is very dangerous.
- (2) The bottle druggist, of whom there are more, and who, man for man, is more dangerous.
- (3) The bootlegger proper.

The bootlegging druggist, taking advantage of the holes in the present act, is preparing to plan bootlegging drug stores in every part of the province. His method of operation is simple. He establishes a store, hires a druggist, whom he makes a nominal member of the company, and starts business. The druggist, in turn, hires his own doctor, who sets him to work writing prescriptions to any person who comes along. The present act does not limit the amount of liquor which a druggist may have; or the amount of liquor the doctor may give out on prescriptions. The business accordingly proceeds at a thriving pace.

There are several of these drug stores throughout the province now, and many more will be placed at different strategic points before many months go by if the act is not amended.

The government is fully advised of this bootlegging scheme and has in preparation legislation which is intended to circumvent this vicious attempt.

DRASTIC LEGISLATION. What the legislation is to be has not been announced, but it is likely to be fairly drastic. Some of the more pronounced prohibitions members of the legislature are urging the government to take over completely the sale of liquor vendors' stores; to prohibit the sale of liquor in any other way.

The government, it is understood, has not decided upon such complete action as yet. The members of the cabinet are nervous that such a plan might lead to some abuse, which would mean serious complications for the government.

THE CHANGES. The government has under consideration, it is said, three or four definite changes, among which are the following: (1) A change in the definition of a bootlegger, which will prevent other than real druggists from handling liquors. In British Columbia there is some provision that prevents any drug company in which a druggist, described as a privileged party, who does not hold a majority of the stock, from dealing in liquor. Some change is likely to be made in Alberta.

(2) Some change in the act, which will permit the government to limit the quantity of liquor which a druggist may purchase, or a doctor may prescribe. There is no limit now.

(3) Changing the order forms of the doctor, by issuing serial numbered prescription blanks and making it easier to trace the prescriptions issued.

(4) A more vigorous enforcement of the act. The provincial police will be brought under the provincial government, and every effort will be made to cope with this problem, and special war will be made on the illicit seller of liquor. The government has been embarrassed by the men of the police through an irresponsible police commission. There has been lack of co-operation, which is necessary. The department is a heavy one, and the commissioner had several difficult problems to deal with. He has hardly got acquainted with the office yet. With the full control of the police, he will start out upon the enforcement of this act in a more vigorous manner. The government realizes the importance of this matter and the serious results, if it is neglected. There may be other changes in legislation, which will tend to make the law more workable. The changes will be made during the present session.

DAYLIGHT SAVING NECESSARY IN CALGARY.

Without a doubt the consensus of opinion among business men of Calgary concerning the daylight saving plan is to adopt it and do so quickly. Said one: "We must fall in line with other Canadian cities if we are to avoid miserable confusion. This, of course, if the railway commission allows the C.P.R. to run on the new schedule."

"It is perfectly evident," said another, "that the city cannot conduct business on two distinct schedules. The grain exchanges have of necessity already changed their time to correspond with the markets, and stockmen will do the same. If the commission decides against the daylight saving for the C.P.R., connections with American lines at the border can still be maintained, but the fact remains, as expressed by representative citizens, that Calgary, as a city, must fall in line if she is to continue her business with outside sources."

AVAILABLE JOBS WILL BE GIVEN RETURNED MEN

PREMIER STEWART THINKS GOVERNMENT OUGHT TO ARRANGE FOR THIS.

Edmonton, April 1.—After Captain Campbell (opposition), Rocky Mountain, had voiced strenuous objection to the legislature Tuesday night to the alleged failure of the government to give positions which became vacant to returned men, Premier Stewart expressed it as his opinion that the government ought to arrange to hold all positions with short hours and comparatively easy work for returned men who are physically unfit for other work. The premier said that one of the returned soldiers' officials was making a survey of men now available for such positions, and that the provincial soldiers' commission had been instructed to keep in touch with him for the purpose of obtaining men to fill such positions.

AS STENOGRAPHERS

Mr. Stewart thought that many of the returned men might be trained as stenographers to take positions as secretaries and clerks in the various departments. He had noted that they were disaffected in a similar question in Ottawa, and had made a promise to the foregoing effect. His position was that all such positions which become open should go to returned men able to take them. With the coming home of more soldiers it would be an easier matter in the future to fill positions in this manner.

The discussion occurred when the house took up the estimates dealing with the administration of justice. Under this heading the following items were advocated:

Legal offices and prosecutions \$544,205; reformatory and children's protection \$119,350; miscellaneous \$25,000. Included in the above sums is an item of \$73,230 for clerks, deputy and acting clerks, and it was all over this item that the debate commenced.

The old quarrel over the establishment of a new sub-judicial district of Canmore, on which the house divided last year, was revived when an item of \$10,100 was brought up. Attorney General J. R. Boyle explained that this was to provide for the establishment of a new sub-judicial district this year. When pressed as to where it would be held, in his opinion, it ought to be somewhere in the vicinity of Hanna. Capt. Campbell again brought up the Canmore sub-judicial district, alleging that it was wholly for the benefit of the people of Canmore and not the people in the district. Harry Montgomery (government), Wetaskiwin, who led the fight against the establishment of the district last year, was out of the house, and Hon. George P. Smith, who comes from Canmore, also did not come in until the finish of the discussion, so that the argument lacked the "punch" of last year, but Mr. Boyle was hard put to defend the establishment of Canmore sub-judicial.

Among the items which the house passed in the estimates at the night session were the following: Supreme court—Edmonton, \$15,349; Calgary, \$10,200; Macleod, \$3,320.

Lethbridge, \$3,620; Wetaskiwin, \$2,750; Red Deer, \$3,100; Medicine Hat, \$4,470; Stettler, \$2,860; Deputy clerks—Taber, \$380; Canmore, \$2,800; Bassano, \$1,800. District courts—Edmonton, \$8,870; Athabasca, \$2,650; Calgary, \$6,590; Macleod, \$1,570; Lethbridge, \$1,940; Wetaskiwin, \$1,250. Process issuers, \$9,950; general expenses, \$150. Sheriffs, deputy and acting sheriffs—Edmonton, \$18,070; Athabasca, \$4,570; Calgary, \$16,720; Macleod, \$4,440; Lethbridge, \$4,740; Wetaskiwin, \$4,030; Red Deer, \$3,940; Medicine Hat, \$5,670; Stettler, \$3,330; Canmore, \$2,490; Bassano, \$1,350; Taber, \$1,750.

UPRISING IN EGYPT WAS VERY SERIOUS.

London, April 3.—A delayed Reuters dispatch from Cairo, under date of March 24, reviewing the uprising, says that within a short time Egypt was again from Alexandria to Assuan. The depredations and excesses recorded must have struck terror into the heart of every civilized being. Owing to the prompt military measures, however, the disturbances in Cairo and Alexandria were not nearly so serious as elsewhere.

The situation was rendered very difficult by the cutting of railway and telegraph lines. "Within a few hours," says a correspondent, "we saw the Egypt of 1882 before us again. But, whereas at that time the rioters were organized, there certainly seems to be organization behind the present movement. We have seen the telegraph cables at the most vital points and railways destroyed by men evidently knowing their work. The tram railway employees, native lawyers, and others ceased working. All efforts were employed to paralyze everything."

G. T. P. TRAIN STOPS AND LETS SOLDIER OFF AT FARM HOME

A fine example of accommodation by the G.T.P. railway to a returned soldier was given last Sunday forenoon between Tofield and Ryley stations on the east bound passenger train's journey east, says the Viking News. A private of the 4th Battalion, who had arrived in Edmonton on Saturday, and resided at a farm midway between the two towns was on the train. He told the conductor where his home was located and, lo and behold, the train, which was running at a lively clip, suddenly stopped and the soldier was let off, kit-bag, helmet, baggage and all, right opposite his farm home, about two hundred yards away. His mother stood in the doorway watching for her boy, and expecting to see him carried to Ryley, ran to meet him. The soldier boy climbed the railway fence, and there in the middle of the field was enacted one of the most beautiful scenes in human history when mother and son embraced. It was the end of four long years of anxious waiting, and under the sunny skies of a perfect Alberta spring day the hopes of a mother and a son's devotion to duty were fulfilled.

SPECIALIST SAID HE MUST OPERATE

She Took "FRUIT-A-LIVES" Instead, And Is Now in Perfect Health.

MME. F. GAREAU

159 Papineau Ave., Montreal. "For three years, I suffered great pain in the lower part of my body, with swelling or bloating. I saw a specialist, who carefully examined me and gave me several tonics to take, which did not help me. Then he told me I must undergo an operation. This, I refused to permit."

I heard about "Fruit-a-lives" and the wonderful results it was giving from fruit juices, so decided to try it. The first box gave great relief; and I continued the treatment, taking six boxes more. Now, my health is excellent—I am free of pain and swelling—and I give "Fruit-a-lives" my warmest thanks."

Mrs. F. GAREAU, 606, a box, 6 for \$2.50, trial also 25c. At all dealers or sent by Fruit-a-lives Limited, Ottawa.

REVOLTING MURDER OF IRISH MAGISTRATE AROUSES COUNTRY

COLD-BLOODED DEED OF SINN FEINERS HAS ROUSED HORROR OF ENTIRE COUNTRY

Toronto, April 2.—The Telegram has the following cable from Belfast, Ireland:

The cold-blooded assassination of Resident Magistrate Milling, at Westport, by Sinn Feiners, has caused horror and consternation among peaceable and law-abiding people in Ulster, where the murdered officer was well known, having been police district inspector in Belfast, Antrim and elsewhere. He was a fine gentleman, who tempered justice with mercy both as police officer and magistrate, and the only motive for his murder was that he represented British rule.

"The police are securing the country for the murderers. If the government makes the reward big enough, the murderers will be discovered. The loyalist press everywhere urges the Irish government to drop unbusinesslike ways and deal drastically with Irish sedition."

FRANCO-BRITISH INTERESTS COME BEFORE THOSE OF U.S.

NO INTENTION OF BRITAIN TO EASE UP ON CLAIMS FOR INDEMNITY FROM GERMANY

London, April 3.—A full dress debate on the question of the proceedings of the peace conference in regard to the payment of indemnities took place today. A number of members expressed apprehension that Germany might succeed in her efforts to avoid payment in full.

It was pointed out that Germany might be bankrupt now, but that the development of her resources would enable her to pay. Furthermore, it was not the business of the delegates at Paris to say what Germany could pay. Their affair was to present the bill; it was Germany's business to find ways and means of meeting her obligations.

Andrew Bonar Law, replying, did not think there was any foundation for the statement that Lenine's government had offered certain terms of peace. Neither he nor the prime minister knew anything about it. In regard to indemnities, Bonar Law stated that the government intended to get from Germany whatever amount could be got from her. In this connection they had not been informed by President Wilson.

Looking at the whole problem of the war, Britain's aim was to secure peace now and hereafter. Unless, as a result of the war the closest possible understanding was obtained, not only with France, with whom we had been all the time on good terms, but also with the United States, with whom there had been a lot of misunderstanding, a great deal would have been lost. The government recognized the greater sufferings of some of our allies, and desired to be fair to them, but in connection with reparation the government must be true to the empire as regards the disposal of money.

He hoped that whatever was done would be done by all the associated powers, but Franco-British interests were more direct than those of the United States.

A NEW HERO

A group of housewives were having tea together at a restaurant and talking over the events of the day. The question under discussion was as to who had done most to win the war. Some said Haig, others Beatty, and others Foch.

At last one woman chimed in. "I don't know who's done most to win the war," she said, "but I know who's been most talked about."

"Who's that?" came a chorus.

"Why, this 'ere Alice Lorraine that the French and Germans came to blows over."

RUSSIAN FIGHT IS ORDERED TO FIGHT ALLIES

London April 4.—Leon Trotsky, the Bolshevik minister of foreign affairs, has ordered the Russian Baltic fleet to put to sea and attack the Allies, threatening to have all the ships shot if they disobey the orders, says the Mail.

BOLSHEVKS SUFFER DISASTER

NORTHERN CAUCASUS CLEARED OF THEM NOW.

London, April 3.—The northern Caucasus from the Black Sea to the Caspian Sea has been entirely cleared of the Bolsheviks as the result of the successful campaign of General Denikin in that region in January and February, according to an official report issued here.

The anti-Bolshevik leaders fighting having co-ordinated new forces of Cossacks and other natives. Reports say that the capture of Vladikavkaz on January 28, by troops under General Shure, completed the campaign against the Bolsheviks, in which 60,000 prisoners, more than 2,000 guns, 800 machine guns, 100 locomotives and thousands of railway cars were taken.

A report from Odessa on February 13 said that the army of General Denikin had captured a Bolshevik army of 100,000 men of whom more than 31,000 were made prisoners.

(4) JOINT HANDS WITH ALLIES.

Butler's learns that a party of about 400 Siberian troops from Admiral Kolchak's army recently travelled on snow shoes from Siberia and joined hands with the allied north Russian expeditionary force near Tzitz on the Pechelura river.

A telegram from Omsk, dated March 28, states that according to the newspaper Ruskaia Armia, a line of communication between Admiral Kolchak's forces has been established and firmly assured. It is authoritatively stated that the allied garrisons at Odessa are now greatly strengthened.

The French commander is confident to be able to hold the town. The Bolsheviks have now reached the outer defenses, which are very strong.

FAIL WEST OF RIGA.

Failure of the offensive in the direction of Takkum in Courland, west of Riga, is admitted by the Russian soviet government in a wireless message.

MAY GIVE VIMY RIDGE TO CANADA

FRENCH PRESS SPEAKS WITH ENTHUSIASM OF SUGGESTION

Paris, April 2.—The French press, in commenting upon the announcement that the French government intended to offer as a gift to Canada the Vimy ridge, speaks with great enthusiasm of Canada's war effort.

La Liberté writes as follows:

"Vimy is indeed the spot where the gallant troops of the Dominion have acquired an immortal renown."

Sir Robert Borden proceeds to London on Thursday, where he is to confer with Sir Edward Kemp and Sir George Perley, as well as with members of the British government respecting demobilization and other important subjects. While in London he will attend the McGill dinner on Friday and unveil a beautiful memorial, the gift of Major and Mrs. Astor, which is to be erected in the cemetery on the grounds of Cliveden consecrated to this purpose.

Hon. Mr. Doherty has been made a member of the international league of nations, recently organized as one of the results of the deliberations on the league of nations. The union will have its seat in Paris and its membership is confined to forty persons. Its object is the active study of new problems growing out of the war which are to be approached in the spirit of co-operation upon which the league of nations is founded. Hon. Elhu Root and James Brown Scott have been elected as members for the United States.

A Word To The Wise

Now that the spring weather is upon us, and our different departments are overflowing with up-to-date merchandise, it will pay you to secure your requirements. We are selling, to-day, very many of our staple goods at less than wholesale prices. When we have to sort up, these prices are bound to advance. Secure your goods now.

Ladies' Wool Sweaters

We have several lines of All Wool Sweaters in the very latest colors; these are pure wool and light weight for Spring and Summer wear. Pull-over style, with and without sleeves.

Prices from \$4.75 to \$9.50

Ladies' Spring Raincoats

We have several lines of Ladies Tweed Rain Coats in Brown, Grey and Mixed Shades. These are excellent Coats. Prices ranging from \$15.00 to \$18.50

Flannelettes

We have just put into Stock a large shipment of Flannelette in Pure White, Dark Greys, and Colors. These are very nice goods, and prices are right.

Bleached Sheetings

We have just received a large shipment of these in 8-4 and 9-4 cotton. Prices are advancing, but our price on these goods is the same as last fall.

From 85c to \$1.00

We have excellent values in Nainsook, Madapolan, and fine White Cottons. Our stock of these goods was never better. Call in and secure your requirements.

Flannelette Blankets

For Spring House Cleaning in 11-4 and 12-4 at

\$3.75 and \$4.50

Table Oilcloth

Table Oilcloth in White and Colors. Our stock is very complete.

Men's Suits

We have had a fine share of the Spring Clothing trade. Never have our sales been as large in this line as this Spring. Our stock is still complete, and satisfied customers tell us our prices are lower.

From \$13.50 to \$45.00

Our Boys' Clothing Stock

Is larger than ever before, and our prices cannot be equalled. Prices from \$6.50 to \$18.00

Our Grocery Stock

Our Grocery stock is always fresh. Our clerks are pleased to wait on you, and our prices are the lowest

BENTLEY AND DISTRICT

THE IDLE THOUGHTS OF A BUSY FARMER.

The ex-Emperor of Germany says the climate of Holland doesn't suit him, he wants to go to Egypt, where it will be warm. If the Allies would just hang him out of hand, he would go to a warmer climate and save a lot of trouble for all hands.

A poor man had struggled along, being able barely to supply the most necessities of life for his wife and family, until he perfected a neat labor-saving device, which he disposed of to a machinery manufacturer and received for a good price. He went to his wife with tears in his eyes. "At last, my dear," he said, "you will be able to buy yourself some decent clothes." "I'll do nothing of the kind," she retorted, "I'll get the same sort of the rest of the women wear."

W. L. McKenzie King, that toady to the millionaire and pretended friend of the working man, is trying to get back into politics, and can occasionally be heard in Ontario lecturing off hot air. Why doesn't he try Alberta? It is a fine place for discredited Ontario politicians. We have one now who successfully buried the Ross government and who is now trying to shuffle the cards so as to land himself in the premiership.

Those men who are anxious to have an eight-hour day about go and work on a farm. Most farmers I know work eight-hour days—eight hours before dinner and eight after.

In his hunt for trouble, Allan is going it rather low. Some time ago, neighbor No. 1, while fixing his line fence, found a place he knew not of that had been trespassed with and held the wire down for convenience in driving over. Allan volunteered the information that that was probably the place used by neighbor No. 2 when he took his boy off No. 1's meadow the previous summer. As No. 1 had sold no hay, he naturally was mad, and let No. 2 know about it. No. 2 got mad, said it was a lie, and tackled Allan. Allan said he had never told No. 1 any such thing, but refused to meet No. 1 before No. 2 and went it out, his reason being that it was well known that No. 1 had taken the Keeley cure, and that no court of law would admit the evidence of a recovered man. When you hear of anything lower than that, let us know, Next.

Said the dispenser of the Gaetz Cornett: "Hairs of our head all numbered, are they? Shucks, that's nothing to me. It would have been had they been better fastened on."

How are our returned veterans, who found such a solace in the cigarette during their time of stress, going to appreciate the campaign against tobacco that the professional prohibitionist is now trying to stage? Like some so-called temperance advocates, they are very impetuous in their language. In the legislature of Indiana, a law has been introduced to make any tobacco user ineligible to public office. Here is a sample of the law (politeness) let off by a so-called legislator of that state: "Smoking in all public places, including depots, all places where people have to go to conduct business, as stores, barber shops and offices, and in streets where people have to pass, should be absolutely prohibited; not merely to the extent of imposing a little fine, but by imprisonment at hard labor. No tobacco fiend has any right to pollute the air another breathe."

This savage sill must cause in our boasted civilization. I would suggest to the Indiana legislature the passing of a law to make such a wit ineligible for any office higher than scavenger of the public cupboards. Tobacco has a very soothing effect, and if some of these cranky fellows would use it a little, we might be saved a lot of useless hot air. I have heard some cranks say the use of tobacco impairs the intellect. I used to smoke one pound of tobacco a week, and I believe it must have impaired mine, otherwise I wouldn't be wasting sixteen hours a day for myself on a farm when I could get twice the money working eight hours a day for someone else. I have also heard some young boys smoke. It stops their growth. It is a good thing I bought my first pipe and tobacco at five years of age and became a regular smoker. By the time I was eight years of age, I grew to stand six feet and one quarter of an inch in my socks and weighed 190 pounds without my socks. If I hadn't begun smoking early, the Lord only knows to what size I would have grown. A number of us have been pining several soldiers to get their separation allowances. They might justly claim to have "husbanded" their resources.

What has happened to the old-time cent shocker? They now sell for \$1.50.

Chancellor Eber, says: "No man can deprive the German people of their brains." That reminds us of the happy father who was telling the street circle of the fracas in the street. "And," he concluded, "the fellow picked up a shovel and said he would knock my brains out, my father!" exclaimed his admiring little daughter, "he couldn't knock any brains out of you, could he?"

Whatever the Bolshevik want is all they have got. "Experts tell us," said John McVicar, "that, roughly speaking, one marriage in ten results in divorce."

"Yes," replied Mr. Quize, "and it's the 'roughly speaking' that causes most of the trouble."

Say, Gus! Al tells you lots of things about what others are saying of you. Ask him to tell you what he and his missus had to say about you and the suffrage of Cullins Valley. He said he could kidnap him if he said he was twenty-five cents a feed at the livery barn.

MORE EVIDENCE

(Calgary Herald.)

For the benefit of Mr. Turf and others who have an idea that Russian Bolshevism is quite legitimate and proper, and that excesses already referred to in The Herald are but mere incidents in the development of the plan, the following from The New York Times, being the evidence of R. F. Simmons, a representative of the United States department of commerce in Berlin, before the committee investigating Bolshevism, should prove interesting reading:

A decree issued by the Soviet of the city of Vladimir, the capital of the province of the same name, 15 miles from Moscow:

"Any girl having reached her 18th year and not having married is obliged, subject to the most severe penalty, to register at the Bureau of Free Love of the Commissariat of Surveillance."

"Having registered at the Bureau of Free Love, she has the right to choose from among the men between the ages of 19 and 50 a cohabitant husband."

"Remarks—(1) The consent of the man in the said choice is unnecessary. (2) The man on whom such a choice falls has no right to make any protest whatsoever against the infringement."

"The right to choose from a number of girls who have reached their 18th year is also given to men."

"The opportunity to choose a husband or wife is to be presented once a month."

"The Bureau of Free Love is autonomous."

"Between the ages of 19 and 50 have the right to choose from among the registered women, even without the consent of the latter, in the interests of the state."

"Children who are the issue of these unions are to become the property of the state."

"The decree states further that it has been based on the 'excellent example of similar decrees already issued at Luga, Kolpin, etc.'"

A similar 'project' of provisional rights in connection with the socialization of women in the city of Ivelnik and vicinity" has been published in the Local Gazette of the Workers' and Soldiers' Deputies, Mr. Simmons said.

At that, the Bolshevists of Vladimir, Luga, Kolpin, Ivelnik, etc., are conservatives as compared with those of the city of Saratov. Saratov is the tenth largest city in all Russia, with a population of 217,000.

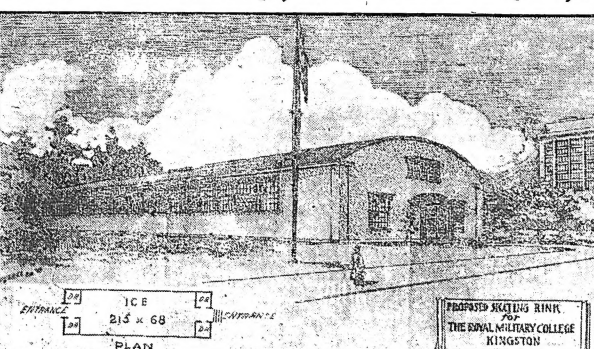

Mr. Simmons read a decree dated March 15, 1918, issued by the Anarchist Soviet, which was charged by Lenin and Trotsky with the government of the city of Saratov.

Then follows the disgraceful regulation already printed in The Herald from the London Times.

WHICH?

If he's wealthy and prominent, and you stand in awe of him, call him "Father." If he sits in his shirt-sleeves and spongers at ball games and picnics, call him "Pop." If he wheels the baby carriage and carries bundles meekly, call him "Papa," with the accent on the first syllable. If he belongs to a literary circle and writes cultured papers, or if he is a reformer in politics and forgets to vote, call him "Papa," with the accent on the first syllable. If, however, he makes a pal of you when you're good, and is too wise to let you pull the wool over his loving eyes when you're not, if, moreover, you're sure no other fellow you know has quite so fine a father, you may call him "Dad," but not otherwise.—H. C. Chatfield.

NEW USE FOR AVIATION SHEDS

AFTER many years of waiting a covered aviation rink has been secured for the Gentlemen Cadets at the Royal Military College at Kingston, and the acquisition of this building will give a great impulse to the national game "hockey." Hitherto the Royal Military College hockey team has had to go along the beach or on the ice of the lake and occasionally the city rink at Kingston. These limitations interfered materially with the quality of the game. On the demolition of the old buildings, originally designed for use as flight sheds (or aeroplane hangars) became available, and through the kindness of Sir Joseph Flavelle, Bart., Chairman of the Imperial Munitions Board, under whose direction this aviation camp was originally established, two of the flight sheds, each 120 feet long by 68 feet wide, were secured to form the basis of the new covered skating rink. The many friends of the Royal Military College were not slow in taking advantage of this opportunity in coming forward to assist in the work. The rink, when completed, will be substantially as shown in the above illustration. The main building will be 210 feet by 68 feet wide, and the height of the underside of the roof trusses to the level will be 18 feet. Commodious dressing and locker rooms, 25 feet wide, and a bath will be provided at one end, over which a gallery for spectators, capable of seating 300 persons, will be provided. The main shaft of the rink will be 215 feet by 68 feet wide and will be well lighted by the rink and with electric lights for the evening. The outside will be neatly finished in cement rough-cast and present a generally attractive appearance. The originators of this project have received many congratulations from a host of friends interested in the Royal Military College.

GERMAN OUTLOOK VERY GRAVE

THOUSANDS OPENLY PREACH THE BOLSHEVIST POLICY

London, April 2.—Describing the outlook in Germany, the Berlin correspondent of The Mail says the crisis, which is rapidly approaching, either will be graver than the one which preceded the fall of the Kaiser, or the latter or March outbreak.

"One of the storm centres is Bavaria, especially Munich," he writes. "The situation in southern Germany has completely changed during the last three weeks. Thousands of people, including many women, attend mass meetings, at which unadmitted Bolshevism is advocated, and demands are made for the abolition of parliamentarism."

"A political party has arisen that is even stronger than the Spartacists. The members of this party call themselves Syndicalists, and the apparatus is led or inspired by terrorists who escaped from Düsseldorf when government troops occupied that city after the last rising."

"Bolshevism is working in Germany by propaganda, as it did in Hungary, and is wrecking and removing opportunities for parliamentarism."

STREET FIGHTING
Stuttgart, Tuesday, April 1.—Proclamation of a general strike of working people throughout Württemberg today was met by a counter-strike on the part of the bourgeoisie. Street fighting developed in the afternoon, and three persons are believed to have been killed, while many were injured.

The casualties occurred when a column of strikers, holding a demonstration for their demands, met a large detachment of government troops with machine guns and armor-plated cars for the time being.

The troops insisted that the strikers disperse. The strikers refused, and adopted a threatening attitude. They hurled stones, and the troops fired. There was some brief hand-to-hand fighting, after which the demonstrators were driven off and ordered restored for the time being.

Stuttgart, however, is growing nervous. The gas and fuel supplies have been cut off and the food situation is serious.

Although the demands of the strikers are ostensibly for the removal of martial law, the release of political prisoners and new elections for the workers' and workmen's council, it is believed in government quarters that they are working under the surface to bring about the downfall of the government, by which they hope to endanger the national government.

It is claimed it is intended that the strike here shall spread all over Germany.

The Majority Socialists have not taken a definite attitude in the situation and seemingly are divided. The Independent Socialists and the Spartacists are working together. Only two newspapers, one Majority Socialist and one Independent are permitted to appear.

TEXTILE WORKERS STRIKE
Berlin, via Copenhagen, April 2.—The entire body of textile workers in the Cassel district of Westphalia has struck for higher wages.

ANOTHER STRIKE
Copenhagen, April 2.—A dispatch received from Mulheim-on-Ruhr, says that all the workers employed in the great metal works owned by the Thyssen firm, have gone on strike.

CLASH WITH POLICE
Copenhagen, April 2.—According to the Berlin Lokal Anzeiger, "Koenigsberg" correspondent, there was fighting lasting several hours with machine guns and hand grenades between government forces and disorderly elements in Sensburg. The affair

originated as a result of an attack on officers, who were roughly handled and threatened with death.

Many persons were wounded in the fighting and a state of siege has been proclaimed in Sensburg.

METAL WORKERS STRIKE
The Zeitung Am Mittag announces a strike in the Berlin metal industry involving all categories and including draftsmen and foremen numbering roughly 30,000 men.

MILITARY SHOOTING
The Vossische Zeitung says the Stuttgart streets are filled with great crowds and that there has been much shooting. The newspaper adds that the streets are patrolled by armored cars and police and whole companies of troops.

It is officially announced, says the newspaper, that a large number of Spartacists from outside centres entered the city in the last few days, but that the government is master of the situation.

A collision occurred at Esslingen, six miles southeast of Stuttgart, where a company of police were attacked with grenades. Several persons were killed or wounded. The food supply is greatly endangered, according to the newspaper.

BOLSHEVISTS TREAT PRIESTS WITH THE UTMOST CRUELTY

TERRIBLE STORIES OF CRUELTY AND ATROCITIES ARE TOLD; POPE APPEALS FOR MERCY

Rome, April 2.—(Canadian dispatch from Reuters).—The Observateur Roman publishes correspondence between the pope and the Russian Bolshevik government, relative to the ill-treatment of the Russian clergy.

Archbishop Sylvester, of Omsk, appealing to the pope against this ill-treatment, stated that the Bolshevists had murdered 20 bishops and hundreds of priests, cutting off their arms and legs and laying others alive.

The pope appealed to Lenin to spare the Russian clergy. Titcherich brutally replied that Russians were all equal whatever their religion, and accused the clergy of hoarding food, while the people were starving.

London, April 2.—(Canadian Press dispatch from Reuters).—The Silver minister of justice detailing the terrible atrocities by the Bolshevists prior to the evacuation of Perna, lays special stress on the tortures of class 57. One of the worst cases was that of Archbishop Androuleux, who was buried alive.

Below we give a list of the more important summer and fall fairs in Alberta in 1919, as well as those in territory adjoining our own district:

Trochu—October 2, 3.
Rocky Mount House—Sept. 22, 23

NEW USE FOR AVIATION SHEDS

AFTER many years of waiting a covered aviation rink has been secured for the Gentlemen Cadets at the Royal Military College at Kingston, and the acquisition of this building will give a great impulse to the national game "hockey." Hitherto the Royal Military College hockey team has had to go along the beach or on the ice of the lake and occasionally the city rink at Kingston. These limitations interfered materially with the quality of the game. On the demolition of the old buildings, originally designed for use as flight sheds (or aeroplane hangars) became available, and through the kindness of Sir Joseph Flavelle, Bart., Chairman of the Imperial Munitions Board, under whose direction this aviation camp was originally established, two of the flight sheds, each 120 feet long by 68 feet wide, were secured to form the basis of the new covered skating rink. The many friends of the Royal Military College were not slow in taking advantage of this opportunity in coming forward to assist in the work. The rink, when completed, will be substantially as shown in the above illustration. The main building will be 210 feet by 68 feet wide, and the height of the underside of the roof trusses to the level will be 18 feet. Commodious dressing and locker rooms, 25 feet wide, and a bath will be provided at one end, over which a gallery for spectators, capable of seating 300 persons, will be provided. The main shaft of the rink will be 215 feet by 68 feet wide and will be well lighted by the rink and with electric lights for the evening. The outside will be neatly finished in cement rough-cast and present a generally attractive appearance. The originators of this project have received many congratulations from a host of friends interested in the Royal Military College.

MAKES WASHING EASY

"The Red Star Washer makes wash day welcome. It works so easily a boy of 6 can run it when loaded. It abolishes all the drudgery of wash day. Does the work in half the time it takes to do it by hand."

RED STAR Washer

The Red Star Washer is easy to operate because the mechanism rides on two sets of ball bearings. The fly wheel is large. The lid is easy to lift, and you can raise the duster from the clothes before you open the lid, so the clothes will not come up with it or tear. The mechanism is very simple and compact, and so strong that the Red Star will last a generation and always run as well as when new.

Please have us send one up, or call and see them on our floor.
